220-2-.85**Hunter Orange Requirement for Hunting and Definition of Open Permit-Public Land**

- (1) All persons hunting any wildlife species, except turkey and migratory birds (including crows) and while hunting legally designated species during legal nighttime hours during dates and in areas open by regulation to gun deer season, including youth deer season and muzzleloader deer season, are required to wear an outer garment above the waist with a minimum of 144 square inches of hunter orange or either a full size hunter orange hat or cap. Hunters are not required to wear hunter orange when hunting from a stand elevated twelve (12) feet or more from the ground, when hunting in an enclosed box stand, when traveling in an enclosed vehicle, or when traveling on foot no more than twenty feet directly between an operating enclosed vehicle and a stand where the hunter is exempt from the hunter orange requirement. The hunter orange must be worn when traveling on foot between an operating enclosed vehicle and exempt stand when the distance is more than a direct distance of twenty feet. A small logo and/or printing is permitted on the front of hunter orange caps; otherwise, hunter orange must be of solid color and visible from any angle. Only hunter orange, commonly called blaze orange, ten mile cloth, etc., is legal. The various shades of red as well as camo orange are not legal.
- (2) "Open Permit-Public Land" is defined as governmentally owned land open for public hunting and/or lands made available to the public on an individual basis whether for a fee or not. Examples of such lands would be national forest lands, lands owned by lumber companies and utility companies available for use by hunters either through free permits, fee permits or no permit requirement.

220-2-.114 Normal Agricultural Planting and Hunting of Dove

- (1) Top sowing of wheat is a recommended planting practice for establishing a cover crop in low-input management systems. This planting practice requires a well-prepared seedbed. A well prepared seedbed involves adequate tilling of the soil so that when the seeds are planted there will be good soil-to-seed contact and the soil is not excessively hard (i.e., it can easily be penetrated by the developing root of the germinating small grain seed). Growers should be aware that the risk associated with this planting practice is higher than with drilling or other methods that result in coverage of seed. Recommended practices of planting small grain without a prepared seedbed are: (1) no till drilling; (2) broadcasting small grains into the cotton stubble that remains after harvest followed by mowing the cotton stubble; (3) aerial seeding small grains into standing crops such as cotton or soybeans prior to defoliation or leaf drop.
- (2) It is recommended that small grain other than as outlined above be planted into a prepared seedbed by broadcasting or drilling and a bona fide attempt be made to cover seed by cultipacking, discing, raking, etc. Some incidental seed may remain on the surface following a bona fide covering attempt. All small grain planting should adhere to planting dates recommended in printed tables furnished by the Alabama Cooperative Extension System. The earliest planting dates for wheat are included by zone in this regulation. Recommended seeding rate for small grain is no more than 200 lbs./acre. Seeds should be uniformly distributed.

The planting zones for the State of Alabama are as follows:

North Zone Counties -Blount, Calhoun, Cherokee, Clay, Cleburne, Colbert, Cullman, DeKalb, Etowah, Fayette, Franklin, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Madison, Marion, Marshall, Morgan, Randolph, Shelby, St. Clair, Talladega, Walker, Winston

Central Zone Counties -Autauga, Bibb, Bullock, Chambers, Chilton, Coosa, Dallas, Elmore, Greene, Hale, Lee, Lowndes, Macon, Montgomery, Perry, Pickens, Russell, Sumter, Tallapoosa, Tuscaloosa

South Zone Counties - Baldwin, Barbour, Butler, Choctaw, Clarke, Coffee, Conecuh, Covington, Crenshaw, Dale, Escambia, Geneva, Henry, Houston, Marengo, Mobile, Monroe, Pike, Washington, Wilcox

The earliest recommended planting dates for wheat in the North, Central and South planting zones are as follows:

North Zone – August 25

Central Zone – September 1

South Zone – September 15

It will be illegal to hunt over wheat planted before these dates or outside of dates recommended in printed tables furnished by the Alabama Cooperative Extension System. Any small grain planting that does not conform with these guidelines shall be considered bait. Multiple seedings are not permitted under this regulation.

It is illegal to hunt dove on, over, or near any baited area until all bait is completely gone for 10 days.

220-2-.13 Reasonable Effort Must Be Made to Retrieve Crippled Birds, Animals and Fish

It shall be unlawful for any person to take, capture, kill or attempt to take, capture or kill or have in possession any deer, except male or "buck" deer with bare antlers visible above the natural hairline, except under special regulations promulgated by the Commissioner of Conservation and Natural Resources, or to mutilate a deer so as to make the antlers visible above the natural hairline.

220-2-.15 Destroying Sex of Deer or Wild Turkey Prohibited

It is hereby made unlawful for any person who kills, captures, or possesses a deer or wild turkey, in order to evade or attempt to evade any law or regulation, to destroy or attempt to destroy the evidence of sex, or to mutilate the carcass of such deer or wild turkey so as to make the

determination of the legal status of the deer or turkey uncertain. Nothing in this regulation is intended to prevent any person from dressing for consumption any deer or wild turkey which has been killed legally. This regulation is designed to prohibit the killing or capturing of illegal deer and wild turkey hens.

220-2-.16 Period for Training Bird Dogs

Any licensed dog trainer may train bird dogs and any licensed hunter may train his own bird dog during the closed hunting season. Any licensed dog trainer, any licensed hunter may train his bird dogs with the aid of a recovery pen to recover the pen raised quail used in training bird dogs. Provided all pen raised quail used shall be banded and any unbanded birds taken in the recovery pen shall be immediately released.

Under no circumstances, however, shall such training be accomplished or allowed with the use of a gun during the closed hunting season other than as outlined below. Such trainer or owner may train such dogs by using a pistol loaded with blanks only. The training of bird dogs through the use of shotguns and live ammunition shall be allowed at any time of the year, provided that such training be restricted to a specific location predesignated to and approved by the Conservation Officer assigned to the area where the training is to take place; that the dogs being so trained be controlled by leash in a manner restricting them to the specified training area; that only unprotected birds be involved and that written permission for such training be obtained from said Conservation Officer assigned to such area.

Provided further that during the course of approved bird dog field trials (which trials shall only be conducted pursuant to possession of a valid permit from the Department of Conservation and Natural Resources), only pen-raised banded quail may be shot. The shooter, or person bearing the gun, will not be required to have a hunting license. Only one person at a time may possess a gun during the course of a permitted field trial where quail will be shot. A bird dog field trial permit where quail are taken will only be issued for a predesignated marked course and the number of tagged pen-raised birds to be released will be specified on the permit. Approval of the local conservation officer will be required prior to the issuance of a bird dog field trial permit where pen-raised quail are to be taken. Permits for bird dog field trials where birds are to be shot will only be issued from September 1 through April 30.

220-2-.101 Hunting of Captive Bred Mallard Ducks on Commercial Fowl Hunting Preserves

Such nets may not be used for taking of suckers or any other fish in the following rivers and impoundments thereof located in the above counties: Conecuh River, Chattahoochee River, Choctawhatchee River, Patsaliga River, Pea River, Sepulga River, and Yellow River. Suckers taken under the provisions of this regulation are for personal use only and may not be sold, traded or bartered.

It is hereby made lawful to take minnows, shad, and the following species of suckers: spotted sucker, *Minytrema melanos*; black redhorse, *Moxostoma duquesnei*; golden redhorse, *Moxostoma erythrurum*; and the blacktail redhorse, *Moxostoma poecilurum*; by the use of a cast net, minnow jug, minnow basket, not to exceed 24 inches in length, 12 inches in diameter, with funnel entrance not more than one inch in diameter, or dip net or seine, commonly known as a minnow seine, the length of which shall not exceed 25 feet and the width or depth of which shall not exceed 4 feet for the purpose of taking shad, minnows, or the sucker species identified above for the exclusive use as fish bait. However, no seines may be used in un-impounded tributary streams and creeks. 220-2-.73 The Alabama Cooperative Deer Management Assistance Program

Section 1. The Division of Wildlife and Freshwater Fisheries of the Alabama Department of Conservation and Natural Resources shall administer a program entitled "The Alabama Cooperative Deer Management Assistance Program" to improve management of white-tailed deer through cooperative agreements with landowners and hunting clubs.

Section 2. Each prospective participant shall submit an application on a form to be supplied by the Division of Wildlife and Freshwater Fisheries. Each application must be accompanied by two copies of a map of the area to be included in the Deer Management Program that are of sufficient detail to allow the area's boundaries to be readily determined.

Approval of the application shall be at the discretion of the Division of Wildlife and Freshwater Fisheries. Each landowner/club approved shall be termed a "cooperator."

Section 3. Each cooperator shall designate a person with authority to represent all parties with a controlling interest in hunting activities on the land to serve as the cooperator's contact with the Division of Wildlife and Freshwater Fisheries.

Section 4. The Division of Wildlife and Freshwater Fisheries shall designate a Wildlife Biologist, knowledgeable in deer management, as the agency's contact with each cooperator.

Section 5. Cooperators must abide by all hunting laws and regulations. Failure to do so shall be cause to terminate participation in the Deer Management Assistance Program.

Section 6. Each cooperator shall make a written statement of its deer management objectives. Those objectives must be within the capabilities of the harvest and management strategies that can be applied.

Section 7. Each cooperator shall collect specified biological information from deer harvested and submit the data to the Division of Wildlife and Freshwater Fisheries as directed. Failure to do so shall be cause to terminate participation in the Deer Management Assistance Program.

Section 8. Information concerning past harvest, existing conditions and deer management objectives will be considered in the development of a deer management and harvest strategy for each cooperator. Harvest of unantlered deer will be prescribed as appropriate.

Section 9. Harvest of unantlered deer outside the regular Hunter's Choice hunting season will be allowed only where appropriate to meet the deer management objectives of the cooperator. The number of unantlered deer to be taken, dates of harvest and bag limits will be designated and shall be by written permit as approved by the Division of Wildlife and Freshwater Fisheries Director based on recommendations submitted by the Wildlife and Enforcement Sections. The regular Hunter's Choice hunting season shall not apply to the extent of its conflict with the provisions of said permits.

Section 10. Any person hunting on areas included in the Deer Management Program shall comply with all applicable laws, rules, and regulations, including those relating to the wearing of hunter orange.

Section 11. The Division of Wildlife and Freshwater Fisheries shall provide the cooperator a report based on the biological information submitted.

Section 12. Cooperators will be required to pay an annual user fee to help defray the cost of operating the Deer Management Assistance Program. The amount of the fee will be determined by multiplying the number of acres included in the Program by six cents and adding \$35.00 to the result. The fee will be increased by an additional \$65.00 for cooperators who operate a commercial hunting business charging \$25.00 or more per day for deer hunting privileges and/or accommodations used while deer hunting. Cooperators having available the technical expertise, computer hardware and computer software necessary to collect and analyze biological data as specified by the Division of Wildlife and Freshwater Fisheries may apply for a waiver of the portion of the user fee based on acreage. The annual user fee will be increased \$50.00 for

cooperators who fail to submit completed forms and materials required for participation in the Deer Management Assistance Program in accordance with schedules established by the Division of Wildlife and Freshwater Fisheries. Failure to pay the required user fee as directed by the Division of Wildlife and Freshwater Fisheries shall be cause to terminate participation in the Deer Management Assistance Program.

See also subsection (k) concerning the authority of the Blind Governing Committee.
 - (b) Blinds must meet "Qualifications and Registration Procedures" established by the Wildlife and Freshwater Fisheries Division and deemed acceptable by an inspecting official in order to be registered. For information or a copy of the procedures, call (256) 353-2634.
 - (c) All blinds passing inspection will be tagged by the inspecting official. The tag must remain attached to the blind for the duration of the blind's stay on the Area. Tags shall not be moved to a different blind. It is the hunter's responsibility to make sure the blind they hunt from is properly tagged. No person may hunt from an untagged blind. See also subsection (k).
 - (d) All permanent waterfowl hunting blinds will be inspected and registered between the hours of 8:30 a.m. - 10:00 a.m. on Saturday October 22, 2011. Only one blind may be registered per individual. In addition, that person, if required to have a hunting license or Federal waterfowl stamp to hunt waterfowl, must present a valid hunting license, a WMA license, a state waterfowl stamp and/or a federal waterfowl stamp before the blind is inspected. Owners of blinds passing inspection must present their blind certification receipt at the registration table in order to complete their registration. Only fifty (50) permanent blinds will be installed at preselected sites in the dewatering area. All registered blinds drawing one of the 50 preselected sites must be installed as near as possible to the preselected site prior to gate closing on November 7, 2011. See also subsection (k).
 - (e) Each selected blind must be completely camouflaged with natural material (cane, oak limbs, Fast Grass®, or other similar materials) except for the boat entrance and the shooting holes

before being placed in the dewatering unit. Camouflaged netting, burlap or other similar materials will not be accepted as camouflage, except when used to cover the boat entrance and/or shooting holes. See also subsection (k).

- (f) In order for a blind to be eligible to be hunted from it must be anchored within 10 feet of the appropriate blind location marker. Blinds must remain within 10 feet of the blind location marker during the entire waterfowl season. This is not intended to prevent a blind owner from removing his blind from the WMA. Blind markers shall not be moved or otherwise altered or tampered with. If it is determined by the blind governing committee that a blind marker has been moved or otherwise altered or tampered with, that blind shall be subject to disqualification from hunting by the Blind Governing Committee. See also subsection (k).
- (g) No blind may be attached to the location marker in any way. If a blind is found to be attached to a marker, all hunters in the blind will be deemed to be in violation of this regulation. See also subsection (k).
- (h) Blinds that are drawn and installed in the dewatering unit must be completely removed from the WMA no later than February 20, 2012. Any blind not drawn and installed on one of the 50 sites must be removed from the WMA by sunset of the day following the opening day of waterfowl season. (This includes all blinds within the boundaries of the Swan Creek WMA.) Any such blinds, trailers, or parts thereof remaining on the WMA after the above dates shall be deemed to be the property of the Department of Conservation and Natural Resources and shall be utilized or destroyed as deemed advisable by the Wildlife and Freshwater Fisheries Division.
- (i) Anyone launching a boat preparing to hunt waterfowl within the dewatering unit may not depart any launch site before 4:00 AM daily. With the exception above, all other hunters preparing to hunt waterfowl within the dewatering unit shall not be allowed in the water before 4:00 AM daily. All boats and boat blinds used in the harvest of waterfowl within the dewatering area shall be floated to an approved launching site for overnight mooring or removed from the dewatering unit no later than 7:00 PM daily.
- (j) Dewatering area access gates will be closed on November 7, 2011 and will be opened by 10:00 AM of the day before the opening day of waterfowl season. No boats with motors are allowed in the dewatering unit during the period gates are closed except as specified on decoy days.
- (k) The committee shall have the authority to disqualify any blind if a dispute occurs and it can not be resolved; or for any violation involving Blind Regulations or Permanent Blind Qualifications and Registration Procedures; or for any violation of any portion of this section of the regulation pertaining to the Swan Creek dewatering area. Any blind that is disqualified by the committee shall be deemed immediately ineligible to be hunted from and shall be removed from the dewatering unit for the remainder of the

waterfowl season following notification of the blind owner. The blind owner will have 48 hours in which to move the blind to an approved launch site for mooring and no more than seven-days following notification of disqualification, for its complete removal from the WMA. Should the blind owner of a disqualified blind fail to move the blind to an approved launch for mooring and/or to completely remove any such blinds, trailers, or parts thereof from the WMA within the specified times listed above, the blind shall be deemed to be the property of the Department of Conservation and Natural Resources and shall be utilized or destroyed as deemed advisable by the Wildlife & Freshwater Fisheries Division.
